

Package ‘fueleconomy’

March 23, 2020

Title EPA Fuel Economy Data

Version 1.0.0

Description Fuel economy data from the EPA, 1985-2015,
conveniently packaged for consumption by R users.

R topics documented:

common	2
vehicles	2
Index	4

common

Common models

Description

These models have at least 10 years worth of data. This dataset is suitable for a left-join designed to restrict the number of observations to a more manageable level.

Usage

```
common
```

Format

A dataset with variables make, model, n (total number of models) and years (total number of model-years).

Examples

```
if (require("dplyr")) {  
  vehicles %>% semi_join(common)  
}
```

vehicles

Vehicle data

Description

Fuel economy data from the EPA, 1985-2015. This dataset contains selected variables, and removes vehicles with incomplete data (e.g. no drive train data)

Usage

```
vehicles
```

Format

A data frame with variables:

id Unique EPA identifier

make Manufacturer

model Model name

year Model year

class EPA vehicle size class, <http://www.fueleconomy.gov/feg/ws/wsData.shtml#VClass>

trans Transmission

drive Drive train
cyl Number of cylinders
displ Engine displacement, in litres
fuel Fuel type
hwy Highway fuel economy, in mpg
cty City fuel economy, in mpg

Source

<http://www.fueleconomy.gov/feg/download.shtml>

Examples

```
if (require("dplyr")) {  
  vehicles  
  vehicles %>% group_by(year) %>% summarise(cty = mean(cty))  
}
```
